MOHAMED AMAKRANE

Mobile App Developer — Flutter/Dart & iOS (Swift/SwiftUI)

Rabat, Morocco | +212 709 319 893 | mohamed.amakrane.dev@gmail.com | LinkedIn

SUMMARY

Mobile App Developer specialized in Flutter/Dart, with strong native iOS (Swift/SwiftUI) experience. Multiple production apps live on the App Store and Google Play, built end to end: architecture, UI/UX, backend, payments, and release. Comfortable owning an app solo from idea to store release, or shipping features inside a team.

TECHNICAL SKILLS

Flutter / Cross-Platform: Flutter, Dart, GetX, State Management, Firebase, REST API Integration, Google Maps Platform, Stripe, Material Design

iOS (Native): Swift, SwiftUI, UIKit, MVVM, Clean Architecture, Combine, async/await, Core Data, Xcode, TestFlight

Backend & Cloud: Node.js, TypeScript, REST API Design, AWS, Google Cloud Platform, Firebase (Firestore, Auth, Cloud Messaging)

AI & Data: AI/LLM API Integration, Recommendation Systems, Web Scraping

Other: Kotlin (Android), Git, GitHub, Agile, Clean Code, Code Review

EXPERIENCE

Mobile Apps Developer — ABDC (Apps Business Digital Corporate), Dubai, UAE (Remote) *May 2025 – Present*

- Design, develop, and ship production Flutter and iOS apps end to end, from concept to App Store and Google Play release — 10+ production apps shipped.
- Shipped Zabbane, Skinea by Claire, Chart AI Assistant, and Pop Skills (details below), mostly built with Flutter.
- Build cross-platform features in Flutter, integrate REST APIs, Firebase, and third-party SDKs; also work with native iOS (Swift/SwiftUI).
- Work with designers and product managers to turn UX requirements into shipped features.

Mobile Apps Developer Intern — Med You In, Meknes, Morocco *Mar 2025 – Apr 2025*

- Built and deployed cross-platform apps using Flutter and Firebase for iOS and Android.
- Integrated RESTful APIs and managed real-time data sync with Cloud Firestore.
- Took part in architecture and design discussions, applying clean code and scalable patterns.

FEATURED PROJECTS

Zabbane — Flutter Translator Booking App

Flutter, Dart, GetX, Node.js, TypeScript, Stripe, Voice/Video Calling, Google Maps

- On-demand translator booking app: in-app voice/video calls, Stripe payments, live map tracking, and a Node.js/TypeScript backend for auth and bookings.

Skinea by Claire — Flutter App

Flutter, Dart, Node.js, AI Integration, AWS · Live on the App Store

- AI-powered skincare app: personalized recommendations, a Node.js/TypeScript backend on AWS, and automated data pipelines feeding the recommendation engine.

App Store: Skinea by Claire

Chart AI Assistant — Flutter App

Flutter, Dart, AI/LLM Integration · Live on the App Store

- AI chat assistant with real-time networking, resilient error handling, and a polished interface.

App Store: Chart AI Assistant

Pop Skills — AI Recruitment Platform

Node.js, TypeScript, AI/LLM Integration, Full-Stack

- AI-powered recruitment/learning platform. Owned backend, frontend, and product decisions solo, including AI candidate-job matching and auto-generated skills tests for employers.

Aevy AI — Independent iOS App (AI Fashion Stylist)

Swift, SwiftUI · In Development

- Building solo, end to end: a native iOS AI fashion stylist app that suggests outfits and clothing to users.

EDUCATION & LANGUAGES

Diploma in Computer Science — Cité des Métiers et des Compétences *Aug 2023 – Jun 2025*

Languages: Arabic (Native) • French (Professional) • English (Professional)
